

Together with Children's Community Health Plan 2017 Preventive Services Reference Guide for Members

Together with Children's Community Health Plan (CCHP) covers many preventive services at no cost to you, including screening tests and immunizations in accordance with the Patient Protection and Affordable Care Act of 2010 (ACA). Below is a list of services that should be covered without a copayment or applying to your deductible or coinsurance, as long as the services are recommended as preventive by your doctor and are delivered by an in-network provider.

Please be aware that this list may be amended from time to time to comply with federal requirements.

A complete listing of recommendations and guidelines can always be found at

www.HealthCare.gov/center/regulations/prevention.html.

Sometimes a routine preventive exam may result in a specific diagnosis from your doctor or the need for additional follow-up care. If you require follow-up care or if you're being treated for injury or illness, those additional services may not be covered at 100 percent. If you have any questions, call Customer Service at **1-844-201-4672**.

Under some plans that are "grandfathered" under the Affordable Care Act, you may have to pay all or part of the cost of routine preventive services. Please refer to your specific Schedule of Benefits.

Covered Preventive Services for adults (ages 19 and older)

1. **Abdominal Aortic Aneurysm** one-time screening for men of specified ages who have ever smoked
2. **Alcohol Misuse** screening and counseling

23. **Well-woman** visits to get recommended services for women under age 65

¹ Member must have pharmacy benefits through Together with Children's Community Health Plan. Prescription required. Preventive coverage of prescription drugs is limited to generics unless a medical exception is authorized or for certain contraceptive categories where generics are not available. Preventive coverage of contraception includes at least one medication or device in each of the U.S. Food and Drug Administration identified methods. Some devices are only covered under the medical benefit. For questions about preventive coverage of contraceptives or other prescription drugs, please contact our Customer Service at the number listed on the back of your member ID card.

2017 Preventive Services Reference Guide for Members
