Medical Utilization Management Policy

SUBJECT: HEARING AIDS, WEARABLE

INCLUDED PRODUCT(S):

Medicaid

BadgerCare Plus

Care4Kids Program

Commercial

Together with CCHP

Marketplace

Together with CCHP

PURPOSE OR DESCRIPTION:

The purpose of this policy is to define criteria for the medically necessary use of wearable sound amplifying in-the-ear (ITE), behind-the-ear (BTE), or in-the-canal (ITC) hearing aids. This policy does not apply to bone conduction hearing aids, whether implanted or removable (headband or adhesive).

POLICY

ITE, BTE, and ITC hearing aids will be considered medically necessary if:

1. They are used to compensate for sensorineural hearing loss of moderate or worse severity, though hearing aids for members with lesser severity hearing loss may still be medically necessary depending upon a specific justification provided by their treating providers (e.g., occupational need).

AND

2. Hearing aids were prescribed by a licensed audiologist

Effective: 2/16

Revised: 3/18

Reviewed: 10/21

AND

3. The member has been examined by a physician who has provided medical clearance for hearing aid use.

For medically necessary hearing aids, coverage includes the hearing aid device, associated charges for fitting and testing, dispensing fees, and batteries.

ITE, BTE, and ITC hearing aids may be replaced every 5 years for adults and every 3 years for children ages 17 and under. At the discretion of CCHP, hearing aids may be replaced once due to loss within the device lifespan (5 years for adults, 3 years for children).
